DETAILED ACTION

Remarks

1. Applicants' cancellation to claims 9, 18 and 274 is acknowledged. Thus, claims 1-8, 10-17, 19-273 and 275-421 are pending in the application.
2. The rejection and objection, as set forth in the previous Office Action, are withdrawn.

Allowable Subject Matter

3. Claims 1-8, 10-17, 19-273 and 275-421 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The closest prior art of record, Fujita (JP-02-37964), teaches a related method, as stated the previous Office Action. In contrast, Fujita neither teaches nor suggests *pumping* the viscous material into the viscous material pool; delivering the viscous material into the viscous material pool *through the inlet*; *aligning* at least one semiconductor component *over the viscous material pool*; *biasing* the semiconductor component *downward proximate* the viscous material in the viscous material pool; providing one of a *hydraulic biasing mechanism, pneumatic biasing mechanism, and electrically-powered biasing mechanism* configured to *place* the one semiconductor component proximate the viscous material; *leveling* the exposed surface of the viscous material prior to wetting a specific location of the semiconductor component; and exposing the exposed surface of the viscous material, the exposed surface of the viscous material having a height that *extends above* the height of the at least one peripheral edge.

Therefore, the claimed invention is neither anticipated nor rendered obvious over the prior art of record.

Art Unit: 2823

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
